

Internet Acceptable Use and Safety Policy

Use of Personal Devices

Students in grade K-6 are not allowed to use their phones at all during the school day. Students are encouraged not to bring any electronic devices to school. These devices are disruptive in school and are very prone to thefts. Should these devices become visible, audible, or used during class time, they will be taken from the student immediately. A parent or guardian will be asked to pick up the device from the office. Should the student not deliver the electronic device and its components used during the violation, devices are subject to search by school administration, should reasonable cause be determined.

Acceptable Internet Use Policy

- 1.) Supports instructional purposes and goals.
- 2.) Furthers the school's educational and administrative purposes, goals, and objectives.
- 3.) Furthers research related to education and instruction.
- 4.) Does not violate the student code of conduct or employee standards of conduct.

Suspending or Revoking Privileges

Computers/technology play an instrumental role in the education of our students. Students who violate this policy will initially receive a warning. Depending upon the severity of the first violation, students may immediately lose their privileges. Upon a second violation, students will lose their technology privileges for the remainder of the year based upon the severity of the violation. It will then become the responsibility of the student and parent/guardian to work out a plan along with the teacher on how the student can finish the remainder of the school year without using school technology.
